

DAERA authorised Private Veterinary Practitioner Bulletin 03/21

Issued: 02 June 2021

Audience: DAERA authorised Private Veterinary Practitioners (aPVPs)

Subject: TRACES Classic INTRA Certification Update

- **Model ITAHC 91/68 (2020/772) EII Ovine/Caprine for Fattening**
- **Model ITAHC 64/432 (2021/605) F2 Swine**

TRACES Classic INTRA Certification Update

Model ITAHC 91/68 (2020/772) EII Ovine/Caprine for Fattening

ITAHC 91/68 EII (2020/772) previously used for certification of fattening sheep has been withdrawn from TRACES Classic in advance of further changes to be introduced later in the year relating to the introduction of the new Animal Health Law certificates.

We have been advised by the TRACES Helpdesk that the breeding ITAHC 91/68 EIII (2020/772) is to be used for both breeding and fattening of sheep.

To assist aPVPs with certification for fattening sheep the Notes for Guidance for ITAHC 91/68 EIII (2020/772) have now been updated to reflect this dual purpose and can be viewed using the following link: [Export certification for fattening sheep & goats to EU Member States directly from a premises of origin | Department of Agriculture, Environment and Rural Affairs \(daera-ni.gov.uk\)](#)

Model ITAHC 64/432 (2021/605) F2 Swine

ITAHC 64/432 (2021/605) F2 Swine this updated version now displays in TRACES Classic and should be used for export certification purposes.

The existing guidance to support certification can be viewed via the following links: [Export certification for breeding/production pigs to EU Member States via an EU approved assembly centre | Department of Agriculture, Environment and Rural Affairs \(daera-ni.gov.uk\)](#)

[Export certification for slaughter pigs to EU Member States via an EU approved assembly centre | Department of Agriculture, Environment and Rural Affairs \(daera-ni.gov.uk\)](#)

This is still current and therefore should continue to be used by aPVPs when undertaking certification for these type of exports.
