

DAERA authorised Private Veterinary Practitioner - BVD Certification Training Webinar Recording

Information Bulletin: aPVP 08/22

Issued 02 August 2022

Audience: DAERA authorised Private Veterinary Practitioners

Subject: Changes to the requirements for the certification of breeding and production cattle to the ROI (and other EU Member States with BVD Approved Eradication Programmes)

Content

You will be aware that the ROI had their BVD Eradication Programme approved by the EU on 18th July 2022. The ROI are now listed as a Member State with an Approved Eradication Programme for BVD. This listing brings with it changes to the requirements for the certification of breeding and production cattle to the ROI (note certification of cattle for slaughter remains unchanged).

Trade Programme and BVD Programme held a joint webinar for practitioners on Wednesday 27th July 2022 to explain the changes and what these mean. A recording of this webinar is now available for those unable to attend on the day. The recording can be viewed on the 'Authorised Private Veterinary Practitioner Certifying Officer Training' page on CAFRE Moodle. The site can be accessed via this link:

[Cafre: Log in to the site](#)

A separate, short presentation on testing options for BVD certification is available on the DAERA webpage at the following link:

[BVD Guidance for aPVP | Department of Agriculture, Environment and Rural Affairs \(daera-ni.gov.uk\)](#)

This presentation and another short presentation on the changes to the certification options are also available on the CAFRE Moodle page.

If you have any queries regarding the information in this bulletin please contact DAERATradeExports@daera-ni.gov.uk

Kind regards

Trade Programme
