Part 5 - Lost or Stolen cattle - For Lost or Stolen cattle Parts 1,2 and 5 should be completed as above

The keeper of a holding from which cattle are lost or stolen should forward an MC2 movement document to DAERA within 7 days of the event being noticed to report the details of what has occurred. Relevant information may be entered on the bottom right corner of the MC2 and should, if applicable, include the PSNI number and any further details. Additional sheets may be attached to provide more evidence.

As there will be no "buyer's" details recorded on the MC2 the keeper should record Lost/Stolen in that section.

The Keeper must confirm the reappearance of cattle previously lost to his local DAERA office by completing an MC2 confirming each animal's identity, the date found and a brief explanation of how it was recovered. This MC2 must be signed and dated by the keeper. The animal(s) that have been found will be inspected by a member of the local AHWI staff and if the animal(s) are correctly identified the movement of the ear tag numbers back into the keeper's herd will take place.

As there will be no "sellers" details recorded on the MC2 the keeper should record Lost/Stolen in that section.
