Definition of Words and Expressions of Words used in this document

“The Applicant” applies to the organisation listed in the letter of offer.

“The Project” means the Project as specified in the application for financial assistance under the provisions of DAERA grant aid and as approved by the Department.

“Financial Assistance” means the grant funding, or any part or parts thereof as the case may be, specified in paragraph 1 of the letter of offer.

Standard Conditions

1. Appendix 1 issued with your letter of offer outlines the breakdown of expenditure allocated under each heading. The grant claim must be submitted under the headings outlined. The annual award will not exceed the maximum amount allocated under each heading. If you wish the Department to consider re-profiling elements of this breakdown, you must submit this request as soon as possible to the Department (Client Officer and the Grant Team) for consideration prior to expenditure.
2. The offer is a maximum for the agreed elements of work and will not be increased in the event of an increase in costs. The offer provides no guarantee of follow on funding for the same project once this offer expires.

3. The Department shall only provide financial assistance for eligible project expenditure incurred from the start date of the project.
4. The Department reserves the right to reduce or discontinue funding in the event that budgetary constraints arise or due to other unforeseen circumstances. Should the Department decide to reduce or discontinue funding; the Department will provide at least three months' notice.
5. The day to day management of the Project shall be the responsibility of the Applicant who will appoint a Project Manager to act as a contact point with the Department. The Department must be informed of the Project Manager before the project begins.

9. The Applicant must comply with the provisions of all enactments, statutory provisions and other laws operating in Northern Ireland including, but not only, those relating to planning, nature conservation, animal welfare, access, equal opportunities, fair employment and health and safety. European law, where applicable, must also be followed.
10. This grant is being awarded on the basis that it does not meet the definition of a subsidy within any of the UK's international agreements concerning subsidy control,

as it does not have the potential to affect trade, competition or investment between the UK and its partner nations.

11. The Department reserves the right to recover any financial assistance granted subject to a decision by a court of law that the financial assistance in question constitutes a remediable subsidy and / or a decision by the European Commission (where it is established that the financial assistance in question falls within the scope of the Northern Ireland Protocol and is a State aid).

Procurement and Tendering

12. The Applicant shall implement the procurement procedures as set out in the table below. The actions related in the table should be implemented by the Applicant based on the estimated value (excl.
