

Deposit of Dredged Material in the Territorial Sea and Controlled Waters Adjacent to Northern Ireland

Marine Licensing

Important: before completing this form, please read these notes carefully.

The following numbered paragraphs correspond to the questions on the application form and are intended to assist applicants in completing the form. These explanatory notes are specific to this application and so applicants are advised to read these in conjunction with the General Marine Licensing Guidance document. However it may be that these notes do not fully cover all the questions that you may have. If further clarification is needed please telephone us on

02890 569247 or email

MarineLicensingTeam@daera-ni.gov.uk

For fees categories please see Marine Licensing Fees Addendum

For further Guidance please refer to Marine Licensing Guidance for Applicants

EXPLANATORY NOTES

1. Project Title

Enter the name of the project.

If proposing a sediment disposal outside a designated disposal sites you must indicate the location of the disposal operation using Latitude and Longitude co-ordinates in degrees and minutes to one decimal point of a minute.

Attachments required.

You must provide a red line diagram of the proposed disposal location on an admiralty chart.

2. Applicant

The person, company or organisation making the application. (The licensee will be the contractor actually carrying out the disposal activity).

3. Agent

Any person, company or organisation involved in the operations. For example, they may be engaged to act under contract or other agreement on behalf of any party listed in the answer to questions 2-4 and having responsibility for the control, management or deposit anywhere below the tidal limit of mean high water springs (MHWS). (e.g. a consultant submitting the application.)

4. Details of Current/Previous Licence

Enter the appropriate details for the current sea disposal licence. If you have previously held a licence in respect of this operation, but no current licence exists, please provide the details for the most recently expired licence. If you have no knowledge of any previous licence, please enter "not applicable" (or "N/A").

5. Duration of Sea Disposal Operation

Details of the proposed commencement and completion dates of the operation should be included. A licence will normally be valid for 12 months.

6. Details of Disposal Vessel(s)

The name, operator and type of vessel being used for the disposal operation should be entered. If vessel details are not available at the time of application, please indicate this on the form as these details will be included within a licence.

7. Method Statement

Please include a full method statement of the disposal operation. This should include details of proposed frequency of disposal trips per day, average estimated time from dredge site to licensed sea disposal site.

8. Description of Material for Sea Disposal

The applicant should indicate the following:

- Amount of material to be disposed of in metric tonnes. A conversion factor of 1.4 tonnes/m³ should be used for maintenance dredge and 1.6 tonnes/m³ for capital dredge material.
- Type of Material: whether the material is considered to be 'capital' or 'maintenance'
 - Capital: material from an area to be dredged down to a level not previously dredged during the preceding 10 years.
 - Maintenance: unconsolidated material which has been removed to maintain existing charted depths for navigational purposes.
- Nature of Material. Please provide a description of where the dredge material has originated, e.g. river bed, sea, harbour, approach channel, estuary.
- Description of where the dredged material has originated (Lat/Long, depth of material removed, date last dredged)

9. Chemical Analysis of Material to be Disposed of at Sea

Please indicate whether material from the localised area has been chemically analysed within the past 3 years, if yes provide details (locations, dates and laboratory that carried out the analysis). Please provide results on separate sheets. Please note that any delay in providing analysis results is liable to extend the time required to consider your application.

If the material has not been chemically analysed within the previous 3 years, contact should be made with DoE Marine Division. Marine Division will provide details of number of samples to be lifted, sample points and depth of samples. Analysis requirements attached as Appendix I.

10. Construction/Land Reclamation Projects

Please indicate in the answer to this question if the deposit of dredgings is associated with any other project involving the placement of material in the sea (e.g. beach

nourishment, marine/harbour construction operations, land reclamation, installation of outfalls etc.) If this is the case, please indicate if a separate Marine Construction/Land Reclamation/Beach Replenishment licence application has been made.

11. Best Practicable Environmental Option (BPEO)

Please give a very brief summary of the conclusions drawn in the BPEO assessment. Please note that sea disposal licence applications will not be considered unless they are accompanied by such an assessment. All options in the BPEO should be explored fully (as per the guidance document), otherwise your application form and BPEO may be returned to you thereby delaying the processing of the application.

See Appendix II for BPEO Assessment and guidance.

12. Consultation with Conservation Bodies

Consenting authorities have a duty to ensure that any operations will not have a significant adverse environmental impact, particularly upon designated conservation areas (e.g. Areas of Special Scientific Interest (ASSIs)/Special Area of Conservation (SAC), Special Protection Area (SPA)/RAMSAR sites etc) listed under The Conservation (Natural Habitats, etc.) (Amendment) Regulations (Northern Ireland) 2007.

If the applicant (particularly if they have statutory powers for consenting aspects of these works) has already been in consultation with the appropriate nature conservation body – NIEA, Natural Environment Division, please supply any response that they may have given.

13. Designated Conservation Areas

Indicate whether the proposed works are located within or close to the boundaries of a conservation area such as an ASSI, MCZ, SAC, SPA or Ramsar Site.

14. Statutory Consenting Powers

Please describe in the answer to this question what (if any) statutory responsibilities you (or your client) have to consent any aspect of the sea disposal operations. This is particularly likely to apply to harbour or local authorities.

15. Environmental Assessment

Please indicate whether any environmental assessment has been carried out in respect of the proposed sea disposal operations, either under your own powers or as required by another authority. If such an assessment has been undertaken, please indicate if a

copy has been provided with your application. If the statement/assessment has been completed but is not available, please provide an explanation in the box provided.

Additionally please also give detail regarding if and where a copy has been made/is being made available for public inspection.

16. Sea Disposal Site

The details of the licensed sea disposal site to be used will be communicated to the licensee by Department of Agriculture, Environment and Rural Affairs (DAERA) Marine and Fisheries Division in the sea disposal licence.

Should you wish to establish a new site, please provide details in a covering letter with your application and DAERA Marine and Fisheries Division will contact you to discuss your proposal before your application is determined. It must be noted that an application to open a new sea disposal site will not be considered unless sufficient need and reasoning are established for such. It will be preferable on all occasions that an open existing site is used. The cost of any environmental investigations from baseline surveys to identify any new disposal site will normally be the responsibility of the applicant.

Other Considerations

Please ensure that you have:

- Completed **all** appropriate sections of the application form
- Signed and dated the declaration
- Provided the relevant documentation, charts and continuation sheets and

Enclosed the correct payment (refer to fees addendum) or paid by means of BACS (if appropriate)

Otherwise your application will be delayed or returned to you.

Marine and Coastal Access Act 2009 (Part 4 Marine Licensing)

Application to deposit Dredged Material in the Territorial Sea and UK Controlled Waters Adjacent to Northern Ireland (e.g. from dredging operations.)

It is the responsibility of the applicant to obtain any other consents or authorisations that may be required

Under Part 4 (Chapter 5) of the Marine and Coastal Access Act 2009, information contained within or provided in support of this application will be placed on the public register unless DAERA Marine and Fisheries Division (as the licensing authority) approves the applicant's reasons for withholding all or part thereof.

Public Register

Is there any information contained within or provided in support of this application that you consider should not be included on the Public Register on the grounds that its disclosure:

2. would be contrary to the interests of national security **Yes** **No**
3. would prejudice to an unreasonable degree your or some other person's commercial interests or those of a third party? **Yes** **No**

If **Yes**, to either (a) or (b), please provide full justification as to why all or part of the information you have provided should be withheld.

N/A

1. Project Title

Please give a brief identifiable description, including the location of the works.

Dredging Works required at Ballintoy Harbour (55.245 Lat, -6.369 Long). The works are required to re-establish sufficient water depth at low tide to use the slipway and pontoons. An area of approximately 1,600m² is proposed to be dredged in the harbour resulting in approximately 2,232m³ of deposited sands to be removed.

The harbour is to be dredged to -2.0m CD and graded at 1 in 5 to tie the dredge level into the existing bed levels. Depth of dredge should be up to approximately 3m.

The dredged material will be transported to a designated beach replenishment area.

2. Applicant Details

Title (e.g. Mr/Mrs
Miss/Dr)

Initials

Surname

Trading title (if appropriate)

Causeway Coast & Glens Borough Council Harbour Master

Address: (Inc Postcode)

Causeway Coast & Glens Borough Council
66 Portstewart Road
Coleraine
BT52 1EY

Name of contact:
(if different from above)

Telephone number:
(inc. code)

Email address:

Company Registration number

3. Agent Details (if appropriate)

Title (e.g. Mr/Mrs Miss/Dr) Initials Surname

Trading Title
(If different from above)

Business Address:

Name of contact:
(if different from above)

Position within company
(if appropriate)

Telephone number:
(inc. code)

Email address:

Company Registration No.

4. Details of Current/Previous Licence

Licence Reference Number

Expiry Date

Quantity (metric tonnes) deposited
under current licence as at (date)

5. Duration of Sea Disposal Operation

When is the sea disposal operation proposed to commence?

Feb 2025

When is the sea disposal operation proposed to be completed?

June 2025

6. Details of Disposal Vessel(s)

Name of Vessel and Operator (if known)

Type of Vessel
(e.g. Bottom Doors/Split Hopper)

Split Hopper Type Barge

7. Method Statement for disposal operation

It is proposed that the dredged material will be used for beach replenishment on the beach adjacent to Ballintoy Harbour.
The dredged material will be transported to the designated beach replenishment area by excavator or possibly a dump vehicle.
A second long reach excavator located on the beach will distribute the sands evenly across the area. A temporary access road may need to be formed down to the beach to protect the existing revetment from damage and the access road would be removed after completion of the works.

If necessary, please continue on a separate sheet and tick this box

8. Description of Material for Sea Disposal

Type of Material (delete as appropriate) ██████████/Maintenance

Amount of Material to be deposited (metric tonnes) 3,125 t

 Nature of Material i.e. River Bed,
 Sea Harbour, Approach Channel, Estuary Sea Harbour

 Description of area from where dredge material has originated

Co-ordinates (Lat/Long) 55.245 Lat, -6.369 Long

 Depth of Material Removed (m) Up to 2.5m depth

 Date Last Dredged 2017

9. Chemical Analysis of Material

Has the material to be disposed of
 at sea been chemically analysed in
 the previous 3 years? (delete as appropriate) Yes** ██████████

** If Yes please provide the details below.

Location of sampling for analysis 55.245 Lat, -6.369 Long

 Date analysis carried out 31/08/23

 Laboratory SOCOTEC

***Please attach results to this application*

10. Construction/Land Reclamation Projects

Do you intend to apply for, or have applied for a marine construction licence as part of the works? (e.g. harbour works, land reclamation, installation of outfalls etc.)

Yes No

If Yes, please indicate the location of the proposed works and a give a brief description below.

11. Best Practicable Environmental Option (BPEO)

BPEO Assessment Summary

The Best Practicable Environmental Option for disposal of the Ballintoy Harbour dredged material has been assessed as re-use of sediment to facilitate a beach nourishment project at the adjacent beach. However, disposal at sea should be retained as a secondary potential option should the beach nourishment option not materialise.

12. Consultation with Conservation Bodies

Please provide details of any consultation that has taken place with Natural Environment Division (NED) of NIEA, and if appropriate include copies of any correspondence with your application.

13. Designated Conservation Areas

Are any parts of the sea disposal operations located within the boundaries of a designated conservation area?

Yes No

If **No**, and the boundary of the nearest such site is within 5kilometres, please indicate approximate distance of the disposal operation from this boundary.

1 kms

14. Statutory Consenting Powers

Do you, or (if appropriate) your client, have statutory powers to consent any aspect of this project?

Yes No

If **Yes**, please give details

15. Environmental Assessment

Has an environmental assessment been undertaken to support any application in respect of the works, your own statutory powers (if applicable) or any other reason? Yes No

If **Yes**, is a copy of the assessment included with this application? Yes No

If the assessment has been undertaken but has not been included with the application, please provide an explanation below.

Is the environmental assessment available for public inspection?

Yes

No

If **Yes** at what locations:

16. Sea Disposal Site

If you wish to establish a new sea disposal site please indicate here, and Marine Licence will contact you. Otherwise you will be informed of which site should be used and its coordinates.

I wish to establish a new sea disposal site

Yes

No

Declaration

I declare that the information given in this form and related papers is to the best of my knowledge and belief true.
